Scheduling Information

Please note the following:

- The lab will not require any student to work at an hour for which they are uncomfortable, e.g., working late if that makes going home potentially unsafe.
- The more information you can give us about your preferences, the better able we are to schedule you for the hours you want. There is usually a time lag of week or more for a new schedule to be written, so the earlier you get your preferences to us, the sooner you can actually work the hours you would like.
- The hours you are scheduled will be proportional to the number of hours you have remaining according your Federal Work Study award. If you must work more hours for any particular reason (e.g. financial distress, etc.), please let us know and we will accommodate you.
- All questions regarding scheduling should be submitted by email to **sscl@hunter.cuny.edu**
